

Third Circular – 42nd ICAME Conference

Dear ICAME42 participants,

ICAME42 is now only days away and we are very excited about welcoming you to Dortmund soon – be it virtually or in presence.

We have sent the login details for the conference platform on August 5th, please check your spam folder in case you have not received this email. Please note that the conference platform is a separate site, which requires log-in, it is not the general ICAME42 website. Upon entering your details please **allow up to an hour or more** till you receive access to the site as this is hosted externally.

We are also still missing a number of consent forms for data protection; if you have not yet filled this in, please go to <https://umfragen.tu-dortmund.de/967463> to do so to agree to the data protection protocol.

Onsite participation

The conference itself will take place on in Dortmund's *Dorint Hotel*, with the first onsite activities taking place from Wednesday onwards.

The Corona figures in Germany are still low in general. However, Dortmund is currently at a level of 35 cases per 100,000. As a result, FFP2 masks may have to be worn inside closed rooms. Onsite participants, please come prepared for this eventuality and bring FFP2 masks along.

In order for everyone to have a safe conference, please also bring along a **Corona certificate** certifying whether you are fully vaccinated, recovered or tested, to be checked at the conference site. **Could you additionally please** download the **German Corona alert** application on your mobile phones. This is available here:

<https://apps.apple.com/de/app/corona-warn-app/id1512595757>

<https://play.google.com/store/apps/details?id=de.rki.coronawarnapp&hl=de&gl=US>

In order to ensure the safety of all the ICAME community onsite, and to minimize any possibility of onsite virus transmission and subsequent quarantine, we are also encouraging every participant to additionally **test on each of the conference days**. This can be done at a dedicated testing centre in the vicinity (see attached at the end of this circular) or using self-tests, which will be provided onsite. As the official tests are more accurate, we would like to ask you to choose the professional tests if at all possible.

We have scheduled the usual ICAME events: we will have the boat trip on *Harkortsee* on Friday afternoon, and we will get there by coach. The conference dinner will take place on Friday evening at *Hövels Hausbrauerei* in Dortmund. Hövels will also require attendees to present **Corona Certificates** as printouts or on mobile phone apps. All going well, we will even be able to offer the customary disco as well.

You can interact with the online participants on the platform *wonder.me*, and you can also view the recorded videos and the online discussions on the conference streams. So please do make sure that you bring along a laptop computer to take part in this.

Online participants

We had asked online participants at the main conference to submit their videos by August 2nd. These are now ready for viewing on the ICAME conference site. Some few recordings will be uploaded a bit later and will then also be available for previewing. There is the option for online participants to additionally join a live discussion section on thematically related papers. Please see the ICAME42 conference schedule for when the discussion related to your session is scheduled.

The workshop organizers have contacted their workshop participants with information how the online workshops will be run – with prerecorded papers or with other options. Please follow the guidelines of the workshop organizers there. Both the discussion sessions and the streams of the onsite sessions can be joined via zoom links, which will be available on the conference platform.

Online participants can of course follow the onsite presentations through a live stream and interact on the zoom chat function. For the further interaction between both online and offline participants at coffee breaks and at other times we will be using the platform *wonder.me*, so that you can meet up.

List of test centres close to the Dorint Hotel

Closeness in descending order. Centres at the end of the list are closest to the main train station.
